

## Downtown Street Improvements: Phase I Construction

Website: <http://www.juneau.org/engineering/franklinandfrontstreet/>

### Estimated construction dates:

**Block 1: Ferry Way to Admiral Way – Feb 27 to April 15**

**Block 2: Front Street to Ferry Way – April 15 to June 1**

### Key Contacts:

CBJ Project Manager:

Lori Sowa, 586-0875, [lori.sowa@juneau.org](mailto:lori.sowa@juneau.org)

DOWL Inspection Team:

Onsite inspector: Candy Sims, 957-0305, [csims@dowl.com](mailto:csims@dowl.com)

Engineer: Toby Lockhart, 780-3533, [talockhart@dowl.com](mailto:talockhart@dowl.com)

Arete Construction:

Travis Seibel: 321-5565, [stfreeride@yahoo.com](mailto:stfreeride@yahoo.com)

Anderson Brothers Electric:

Pete Anderson: 209-7129, [peter@andersonbrotherselectric.com](mailto:peter@andersonbrotherselectric.com)

### What can I do to prepare?

1. Remove any breakable items from window fronts during sidewalk demolition and compaction near your property
2. If possible, schedule any fuel deliveries or other non-routine deliveries outside of the construction time for your location.
3. Stay up-to-date on the progress of construction by attending the weekly construction update meetings (Tuesdays at 9, Heritage Café on Front Street) and/or by checking the project website
4. Coordinate with the contractor and/or inspector about any special needs
5. Spread the word to other business or property owners who have not been involved in the process – communication is key.

### Parking and Loading Zones

1. On-street parking will not be available in the block currently under construction (i.e. the active construction zone).
2. The contractor will provide a loading zone/parking space (for delivery vehicles only) within 100 feet of each business in the active construction zone.
