Chapter 30

SHOREPOWER ACCESS FEES

05 CBJAC 30.010 Shorepower access fees.

05 CBJAC 30.010 Shorepower access fees.

(a) **Definition.** The charge assessed to the owner of a vessel for plugging into a shorepower connection that is under the administration of the CBJ Docks and Harbors Department. Sections (b), (e), (f), and (g) do not apply to shorepower connections that are under the administration of a private electrical utility.

(b) **Basis for computing charges.** The CBJ Docks and Harbors Department assesses shorepower access fees based upon the type of connection accessed, the length of time a person accesses the connection, the season of the year, and whether a person uses a boat as a residence. Fees are assessed for five types of connections: 20 amp, 30 amp, 50 amp, 100 amp/208 volt, and 100 amp/480 volt. With approval of the CBJ Docks and Harbors Department, a person may use a 50 amp service and be assessed a 30 amp fee provided the service is current limited to 30 amps. The CBJ Docks and Harbors Department assesses fees on either a daily or monthly period. The CBJ Docks and Harbors Department assesses a daily fee for each calendar day, or portion thereof, that a person plugs into a shorepower connection. As an alternate to being assessed the daily fee, a person may elect to pay a monthly fee, good for a calendar month, or portion thereof. To qualify for the monthly fee, a person must pay the applicable fee in advance of the calendar month or arrange for automated monthly billings with the CBJ Docks and Harbors Department, if available.

(c) **Duty to notify.** Prior to accessing any shorepower connection under the administration of the CBJ Docks and Harbors Department, a person must notify and obtain approval of the CBJ Docks and Harbors Department. The purpose of this requirement is to prevent the theft of electricity and to assure a safe connection.

(d) **Connection requirement.** A person accessing a shorepower connection must use a cord comprised of UL listed components that is wired in accordance with the standards established by the American Boat and Yacht Council. Pre-manufactured cords, such as those made by Marinco and Hubbell, are compliant with this section. Homemade cords must be approved for use by the CBJ Docks and Harbors Department. The CBJ Docks and Harbors Department maintains a list of local cord suppliers who can provide cords and components that comply with this section. The CBJ Docks and Harbors Department reserves the right to disconnect a cord that does not comply with this section.

(e) **Daily shorepower access fees.** Fees to access shorepower on a daily basis are as follows:

<table>
<thead>
<tr>
<th>Connection Type</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>20 amp</td>
<td>$4.00</td>
</tr>
<tr>
<td>30 amp</td>
<td>$6.00</td>
</tr>
<tr>
<td>50 amp</td>
<td>$20.00</td>
</tr>
<tr>
<td>100 amp/208 volt</td>
<td>$40.00</td>
</tr>
<tr>
<td>100 amp/480 volt</td>
<td>$100.00</td>
</tr>
</tbody>
</table>
(f) *Summer monthly shorepower access fees.* Fees to access shorepower on a monthly basis during the months of May, June, July, August, and September are as follows:

<table>
<thead>
<tr>
<th>Connection Type</th>
<th>Liveaboard Fee</th>
<th>Non-Liveaboard Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>20 and 30 amp</td>
<td>$75.00</td>
<td>$45.00</td>
</tr>
<tr>
<td>50 amp</td>
<td>$150.00</td>
<td>$90.00</td>
</tr>
<tr>
<td>100 amp/208 volt</td>
<td>$350.00</td>
<td>$210.00</td>
</tr>
<tr>
<td>100 amp/480 volt</td>
<td>$825.00</td>
<td>$490.00</td>
</tr>
</tbody>
</table>

(g) *Winter monthly shorepower access fees.* Fees to access shorepower on a monthly basis during the months of October, November, December, January, February, March, and April are as follows:

<table>
<thead>
<tr>
<th>Connection Type</th>
<th>Liveaboard Fee</th>
