

According to DTF about 60% of Juneau households have a dog and have 100% of CBJ trails available for their use. The 40% of households that pay same tax rates as those with dogs do not have a CBJ trail they can use without encountering dogs. Especially those that have not had rabies shots.

Ms. Blankenship stated that over the past year Gastineau Humane Society has made a concerted effort to step up our patrols near trailheads and would be able to enforce a dog-free trail designation.

CBJ Dog Task Force
