Motion for discussion –

Mr. Rutecki asked if it was an independent or school function

Ms. Vick stated that contingency grant money can't fund a school event and it is mentioned in by-laws. Since they are using school money to go up to event it is considered a school function.

Mr. Pusich asked to call Mary Johns to ask about funding for their trip.

Ms. Johns stated that the school is not paying for anything and decided to fund individually but the school will be paying \$150 for registration.

Mr. Rutecki stated that they can't fund any programs related with Juneau School District. School District team and programs that are school district related do not qualify for any funding.

Ms. Vick stated that if a program applies for an event through the YAG and it was denied for funding then they cannot apply for activity through the contingency grant.

Mrs. Richards-Mazon mentioned that this event was not applied for in contingency or budget in their YAG since the event last year was hosted locally.

Mr. Rutecki motions for award of \$5,400 for Juneau Jumpers.

Motion carries.
