A handwritten signature in blue ink, appearing to be "J. Bohan", written over the name "John Bohan" in the "FROM" field.

RE: Transfer request of \$50,000 from the Last Chance Basin Hydro-Geo Inv (W494-37)
CIP to a new CIP, The JD-Bridge Waterline (NEW)

Background:

The waterline within the JD Bridge is in need of repairs. The restraint system and supports that attach the waterline to the bridge are beginning to wear and fail. An in-depth analysis and design are needed to determine the prudent repairs to the restraint system. We believe the waterline itself to be in good shape.

Action:

Staff requests a transfer of \$50,000 from the Last Chance Basin Hydro-Geo Inv (W494-37) CIP to create a new CIP for the analysis and design for the restraint system.

Staff requests this transfer be moved to the full Assembly for approval.
